### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In particular it is unclear if applicant is claiming the combination of the seat with the matching fitting and the cloth hanging device, or only the subcombination of the cloth hanging device. The seat and the matching fitting are not positively claimed and therefore for examination it will be assumed only the subcombination is being claimed.

Furthermore, the following limitations lack proper antecedent basis:

In claim 6 – line 3, “the interior” and “the back and head rests”; line 5, “the lower end”; line 9, “the middle part” and “the upper end”; line 10, “the part” and “the two head rest support rods”.

In claims 8 and 9 – line 3, “the upper end”

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohanessian (US 4,711,488). Ohanessian discloses a cloth hanging device capable of use within a passenger vehicle as claimed, consisting of a clothes hanger body 22 mounted to a clothes hanger supporting rod 20, the lower end of which is connected to a matching fitting (recess 24) that is a pipe like body with an open upper end built directly into the backrest toward a middle of an upper end of the back rest, and furthermore the matching fitting and supporting rod have a rectangular cross section as seen in Figure 2.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohanessian in view of Kozlowski (US 1,358,756). Ohanessian discloses the invention substantially as claimed but does not have a hook as claimed. However, Kozlowski teaches a clothes hanging device with a support rod 12 and a clothes hanger body 29 and a hook 21 attached to the upper end of the support rod such that the hook projects beyond the hanger body. Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention to provide the clothes hanger device of Ohanessian

Art Unit: 3782

with a hook extending from the upper end of the support rod 20 in order to allow additional articles to be suspended from the clothes hanging device.

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
